

PRODUCT SPECIFICATION SHEET | **SKU RK-23**

RK-23 Brass Impact Sprinkler – 1/2" MNPT Full Circle 25°

The RK-23 is a commercial-grade brass impact sprinkler designed for row crops, pastures, and general field irrigation. Its 25° trajectory delivers a uniform full-circle pattern at operating pressures from 30 to 65 PSI, making it a dependable choice for mid-range agricultural systems.

FEATURES

- Bronze body and arm – corrosion-resistant construction stands up to continuous field use and chemical-treated water.
- Brass nut and tube – precise machined fit ensures consistent nozzle alignment and long service life.
- Stainless steel spring and pin – resists corrosion and fatigue for reliable impact drive season after season.
- 25° full-circle trajectory – optimized for uniform water distribution across open fields and row crops.
- Wide pressure range (30–65 PSI) – compatible with a broad range of pump and mainline configurations without additional pressure regulation.
- 1/8" nozzle – calibrated for low-to-moderate flow applications where precise application rate matters.

SPECIFICATIONS

Connection	1/2" MNPT
Coverage Pattern	Full Circle
Trajectory	25°
Nozzle	1/8"
Flow Range	1.4–4.6 GPM
Radius	33.6–42 ft
Pressure Range	30–65 PSI
Body / Arm	Bronze
Nut / Tube	Brass
Spring / Pin	Stainless Steel
Drive	Spring Arm Impact
