PRODUCT SPECIFICATION SHEET | **SKU RKAJS**

Adjustable Dripper – 0–18.5 GPH (0–70 LPH) – Red

Adjustable dripper with rotating cap — provides simultaneous control of flow rate (0–18.5 GPH / 0–70 LPH) and wetted area.

Turn the cap to increase or decrease flow as plants grow and water demands change. 1/4" barb inlet. Take-apart design for cleaning if clogged. Works best at 15–30 PSI.

SPECIFICATIONS

Flow Rate	**0–18.5 GPH (0–70 LPH)**
Connection	**1/4" Barb**
Color	**Red**
Recommended Pressure	**15–30 PSI**

FEATURES

- Adjustable 0–18.5 GPH — rotating cap controls flow and wetted area simultaneously; adapt to changing plant needs
- Take-apart for cleaning — disassemble and clean if debris causes clogging
- 1/4" barb inlet — connects to 1/4" micro-tubing or inserts into poly tubing
- Best at 15–30 PSI — operates well within standard drip system pressures
