PRODUCT SPECIFICATION SHEET | **SKU RKAV1/2**

1/2" Mini Plastic Air Vent for Drip and Low-Volume Irrigation

Compact 1/2" mini air vent for drip irrigation, micro-sprinkler, and low-volume systems.

Expels air during system startup and opens when the system shuts off to break vacuum and prevent siphoning. Small form factor fits inline on drip laterals and sub-mains.

SPECIFICATIONS

Size	**1/2"**
Inlet Connection	**1/2" MNPS**
Valve Action	**Expulsion & Admission (opens when system off)**
Material	**Plastic**

FEATURES

- Compact 1/2" size - Fits inline on drip laterals and sub-mains without adding bulk
- Air expulsion on startup - Purges trapped air so emitters and micro-sprinklers operate at full capacity
- Vacuum break on shutdown - Opens when pressure drops to prevent siphoning of dirt into emitters
- 1/2" MNPS connection - Male pipe straight thread for drip and low-volume fittings
- Lightweight plastic - Inexpensive and easy to install at multiple points in the system
