PRODUCT SPECIFICATION SHEET | **SKU RKAVC200**

# 2" Plastic Air Vent - Continuous Action (Air Release / Vacuum Relief)

2" continuous action plastic air vent for irrigation mainlines. Performs three functions: (1) expels large air volumes during startup, (2) admits air during shutdown to prevent vacuum damage, and (3) continuously releases small air pockets that accumulate during normal operation.

## SPECIFICATIONS

| | |
|---|---|
| Size | **2"** |
| Inlet Connection | **2" MNPT** |
| Valve Action | **Air Expulsion, Admission & Continuous Release** |
| Material | **Reinforced Polyamide (Nylon)** |

## FEATURES

- Continuous air bleed - Eliminates air pockets that reduce flow and cause pressure fluctuations during operation
- Non-corrosive construction - Reinforced polyamide (nylon) resists weather, UV, and chemical exposure
- 2" MNPT connection - Threads directly onto the mainline at high points
- Threaded elbow outlet
