

PRODUCT SPECIFICATION SHEET | **SKU RKP-2**

2" Pressure Relief Valve - 22-80 PSI (Preset 60 PSI) - FNPT

2" pressure relief valve for protecting irrigation systems from pressure surges and water hammer. Adjustable from 22-80 PSI, factory preset at 60 PSI. Small Internal Spring, Orange Cover.

When line pressure exceeds the set point, the valve opens to release excess pressure and closes automatically when pressure returns to normal. Cast aluminum body with stainless steel shaft. Aluminum cover with 1-1/2" FNPT drain port. Orange powder coating for easy visibility.

SPECIFICATIONS

Size	2" FNPT
Valve Action	Pressure Relief
Adjustable Range	22-80 PSI
Factory Preset	60 PSI
Spring Type	Small Internal Spring, Orange Cover
Body Material	Cast Aluminum
Shaft	Stainless Steel

FEATURES

- Aluminum cover with 1-1/2" FNPT drain port
- Adjustable pressure setting
