PRODUCT SPECIFICATION SHEET | **SKU RKP-3**

# 3" Pressure Relief Valve - 22-80 PSI (Preset 80 PSI) - FNPT

3" pressure relief valve for protecting irrigation systems from pressure surges and water hammer. Adjustable from 22-80 PSI, factory preset at 80 PSI. Internal Spring.

When line pressure exceeds the set point, the valve opens to release excess pressure and closes automatically when pressure returns to normal. Cast aluminum body with stainless steel shaft.

## SPECIFICATIONS

| | |
|---|---|
| Size | **3" FNPT** |
| Valve Action | **Pressure Relief** |
| Adjustable Range | **22-80 PSI** |
| Factory Preset | **80 PSI** |
| Spring Type | **Internal Spring** |
| Body Material | **Cast Aluminum** |
| Shaft | **Stainless Steel** |

## FEATURES

- Provides pressure surge protection for irrigation systems
- Adjustable pressure setting maximizes performance for individual applications
- High-strength cast aluminum body and stainless steel shaft offer strength and corrosion resistance
