PRODUCT SPECIFICATION SHEET | **SKU RKPLF17**

Lay Flat Punch Tool – 17 mm – Orange

17 mm lay flat punch tool (orange) — creates clean 17 mm round perforations in lay flat hose for installing starter connectors, mini-valves, and other fittings that connect to drip tape, dripline, or poly hose. The 17 mm punch creates a slightly larger hole that is easier to install fittings into, but may leak over time if mishandled.

SPECIFICATIONS

Hole Size	**17 mm**
Handle Color	**Orange**
Application	**Lay Flat Hose**

FEATURES

- 17 mm perforation — creates a slightly larger hole that is easier to install fittings into, but may leak over time if mishandled
- Ergonomic handle grip — squeeze action makes clean, consistent holes
- For lay flat hose — used to install starter mini-valves that connect to drip tape, dripline, or poly hose laterals
